## Career Objective

To obtain a challenging position as a Web Developer where I can apply my technical and creative skills in developing modern, user-friendly web applications, while continuously learning and contributing to team success.

## Technical Skills

- Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB
- Tools & Version Control: Git, GitHub
- Others: RESTful APIs, Responsive Design, UI/UX Principles

## Professional Experience

### Web Developer | BitFusion Technologies

May 2024 – March 2025 | Remote, Ranchi

- Developed scalable and responsive web applications using React, HTML, CSS, and JavaScript.
- Redesigned and modernized website architecture to improve UX/UI and performance.
- Built a dynamic platform for clients to track and manage carbon footprint data in real-time.
- Integrated backend systems for secure data storage and efficient retrieval.
- Collaborated directly with clients to gather requirements and deliver tailored solutions with documentation.

### Frontend Developer | Serengstar (Startup)

Feb 2023 – Aug 2023 | On-site, Ranchi

- Designed and developed the website for a music video competition platform.
- Integrated backend system for secure video submission and storage.
- Optimized performance and UX for real traffic and engagement.
- Ensured responsive design compatibility across devices and browsers.

### Web Development Intern | Ardent Computech Pvt. Ltd.

Jun 2023 – Jul 2023 | Remote

- Led a team to design and develop an e-commerce website for plant sales.
- Focused on UI/UX design for a visually appealing and user-friendly experience.
- Handled both frontend and backend integration, building features like product listings, cart, and checkout.
- Delivered a responsive and performance-optimized solution using modern practices.
